

Neuaccess, headquartered in Sterling, Virginia, is a dynamic and forward-thinking minority-owned small business specializing in cutting-edge cybersecurity solutions. Established in 2023, our unwavering commitment is to prioritize and ensure the security of your digital landscape within the DoD sector. With expertise solely focused on cybersecurity, we offer Robust Security Solutions, Thorough Vulnerability Assessments, and Rigorous Penetration Testing, while also providing tailored General IT Consultation to meet your specific DoD-related business needs and challenges.

Core Competencies

Security Operations Center (SOC):

- We provide 24/7 SOC services including continuous monitoring, Real-time threat detection and analysis, Incident response, SOC personal/Staffing, Security tool management and optimization, and Threat intelligence integration.

Vulnerability Scanning:

- Our specialized staff proactively and systematically identify weaknesses and vulnerabilities, prioritizing remediation to ensure your organization's security.

Security Engineering:

- Our team of Security engineers help your organization design and implement cutting-edge solutions to protect your network infrastructure, and applications.

Penetration Testing:

- We Evaluate the effectiveness of existing security measures by offer most robust real-world simulations for most current cyberattacks to identify weaknesses in your environment, by exploiting vulnerabilities, and provide detailed reports with findings and recommendations to improve your organizations security posture.

Differentiators

In the DoD sector, Neuaccess excels as an agile fortress of cybersecurity innovation. Our potent strengths and pioneering partnerships address unique DoD challenges:

- **Agile Expertise:** Adaptive defense for evolving DoD threats.
- **Empowered Defenders:** Educating and equipping DoD personnel.
- **Insider Threat Sentinel:** Neutralizing insider risks, preserving mission.
- **Supply Chain Strength:** Extending protection through DoD supply chain.
- **APTs Rendered Powerless:** Imposing resilience against APTs.
- **Awareness Fortified:** Elevating threat awareness for proactive action.
- **Strategic Allocation:** Effective protection, mindful of budget.
- **Remote Resilience:** Security wherever DoD personnel operate.
- **Data Sovereignty:** Fortifying data privacy within DoD sector.
- **Pioneering Partnerships:** Amplifying DoD defense through industry alliances.

Neuaccess - Empowering Your Success Through Cutting-Edge Solutions and Unmatched Cybersecurity Expertise.

Professional Experience

Neuaccess's leadership has over a decade of collective experience in cybersecurity, catering to both private and public sectors. Our specialization lies in offering services for Security Operations Center, vulnerability scanning and remediation, Security Engineering, and Penetration Testing. Our clients range from federal government agencies, and federal government contracting firms. At Neuaccess, we understand the needs of securing the federal, local and state government, and we strive in providing these needs to secure the critical
